CMR course (open to BSCMR members only)

This year the BSCMR is holding a full-day CMR course on the day before this meeting (i.e. on Tuesday 19 April 2016) at the same venue. The course will provide access to 50 cases plus 25 spot cases to augment your portfolio. The course cannot provide exhaustive training and assumes some core knowledge. We are pleased to announce that BSCMR members will also soon have access to free online educational cases to further augment your CMR training portfolio.

Please note, this course is open to BSCMR members only. If you are not a member, but wish to attend the course, information on how to join the BSCMR can be found on above. Level 1 accreditation can be achieved by combining this course with CMR course lectures and hands-on CMR scanning/workstation training to be provided at the British Cardiovascular Society (BCS) Annual Conference, which takes place 6–8 June 2016.

Details on how to sign up for the training at the BCS Annual Conference will be provided to attendees at the Exeter CMR course; places will be provided on a first-come, first-served basis.

Attendants who complete both the Exeter CMR course and the training at the BCS Annual Conference will be issued with a joint BSCMR and BCS level 1 CMR certificate.

More information and a registration form for the Exeter CMR course can be found on the BSCMR website (under BSCMR Meetings/11th BSCMR Meeting 2016). For ease we have also included an option to register for this course on the registration form in this programme.
