

**British Society of Cardiovascular Magnetic Resonance Research Group
(BSCMR-RG)**

The BSCMR-RG formed in September 2012 and meets twice per year. The aim of the RG is to systematically and comprehensively coordinate clinical CMR research in the UK through well-designed and executed multicentre studies leading to high-quality clinical evidence that will influence clinical practice.

The RG comprises Chris Miller (Chair), Marianna Fontana (Deputy Chair), Anvesha Singh, Chiara Bucciarelli-Ducci, Colin Berry, Dana Dawson, Declan O'Regan, Gaby Captur, Gerry McCann, James Moon, John Greenwood, Marc Dweck, Masliza Mahmood, Sanjay Prasad, Stefan Neubauer, Steffen Petersen, Sven Plein, Thomas Treibel.

The RG currently has five task forces, which each include active researchers from throughout the UK:

- **Artificial Intelligence.** Lead: Declan O'Regan
- **Cardiomyopathies.** Lead: Gaby Captur
- **Heart failure.** Lead: Masliza Mahmood
- **Ischaemic heart disease.** Lead: Chiara Bucciarelli-Ducci
- **Valvular heart disease/aorta.** Leads: Anvesha Singh and Thomas Treibel

If you would like to become involved in multicentre CMR research, please contact the respective task force lead in the disease area of interest. We particularly welcome the involvement of academic trainees and post-doctoral fellows.

If you are planning a multicentre study and wish to have it endorsed by the BSCMR-RG, please download the application form and email it to Chris Miller (christopher.miller@manchester.ac.uk)
